WHAT I BRING

FULL-STACK

Front-end, back-end, APIs, data and production. I stay close to the code.

TECH LEADERSHIP

Architecture, reviews, technical direction, team alignment and delivery.

CLOUD & DEVOPS

Azure, infrastructure, CI/CD, automation, observability and cost efficiency.

PRODUCT MINDSET

From business need and backlog to a product that works in the real world.

SELECTED IMPACT

GLOBAL PLATFORM Edenred Merchant built from Sprint 0 for multi-tenant, multi-country and multi-currency operation.

ENTREPRENEURSHIP Co-built Human Portage and its software platform; business reached ~€7M annual revenue.

AUTOMATION At Pickup, a parcel simulation tool delivered an estimated 500 days/year of saved effort.

COMMUNITY PRODUCT Founded 1PtitFoot: 1,000+ matches played, 10K+ players, sold in 2017.

EXPERIENCE

From developer to architect, tech lead, DevOps and founder.

2023 - NOW

EDENRED

Lead Senior Developer

Merchant platform built from Sprint 0. International architecture: multi-tenant, multi-country, multi-currency, localization, security, CI/CD and observability. Front-end, back-end and architecture ownership.

.NET · Angular · Azure · Multi-tenant

2019 - 2024

HUMAN PORTAGE

Co-founder

Built an umbrella company and the software powering it: contracts, timesheets, invoicing, salary and administration workflows. ~€7M annual revenue; shares sold in 2024.

Product · SaaS · Full-stack · Entrepreneurship

2021 - 2022

ACOLAD

Senior Full-Stack Developer

Advanced automation, invoicing and machine-translation features. Legacy migration toward React and .NET Core APIs. English-speaking mission.

React · .NET Core · SQL · CI/CD

2020 - 2021

ATOS

Architect / DevOps

Azure migration pre-sales for a CAC40 client; Ansible playbooks and roles; cloud infrastructure and automation.

Azure · Ansible · Terraform · PowerShell

2019 - 2020

ASTON ITF

Architect / DevOps

Azure production infrastructure, platform cost reduction and automation of processes, flows and application deployments.

Azure · DevOps · Networking · Automation

2018 - 2019

SOCIÉTÉ GÉNÉRALE

Architect / DevOps

Forex infrastructure migration from on-premise to Azure; continuous integration/deployment and common framework evolution for .NET Core.

Azure DevOps · C# · Angular · KeyVault

2015 - 2018

PICKUP / DPD

Tech Lead / Scrum Master

Led a 3-9 person team. Rebuilt parcel visualization in Angular with continuous integration and broad automated coverage. Created parcel simulation tooling estimated to save 500 days/year.

C# · Angular · CQRS · APIs · Scrum

EARLIER CAREER & CREDENTIALS

A career started in 2003, across startups and major international companies.

2012 - 2018	1PTITFOOT Founder Football community platform connecting players and organizing matches. 1,000+ matches, 10K+ players; sold in 2017.	ASP.NET MVC Azure SQL Azure SEO / SEM
2012 - 2013	SELOGER.COM Freelance Full-Stack Developer Feasibility study and redesign of the construction site; email, SMS and mobile push notification redesign.	ASP.NET SQL Server C#
2011 - 2012	SARENZA.COM Back Office Lead / Scrum Master Led a five-person team, recruitment, order lifecycle, payment engine and production releases.	C# SOA SQL Server
2009 - 2011	CHAPITRE.COM Back Office Architect Target architecture, databases, SOA web services and BizTalk order orchestration.	C# SOA BizTalk
2008 - 2009	DEGETEL IT Consultant Prescription module for dental practitioners.	C# TFS
2008	UBISOFT Tools Engineer Development platform optimization for Ghost Recon Future Soldier.	C++ UML XBOX 360
2006 - 2008	DOBOTEX / PUMA Project Lead Requirements, online/offline order-taking solution and training seminars for Puma sales representatives.	LAMP HTML/CSS Debian
2004	CATALINA MARKETING Developer Customer-targeting software for more efficient marketing campaign launches.	C# SQL Server VB6

EDUCATION & CERTIFICATIONS	
EPITECH	Expert in Information Technologies · 2003 - 2008
- Certified Product Owner - Certified Scrum Master - Ansible Engine - Azure DevOps Assessment - Cloud Solution Provider Licensing Fundamentals - AWS Solutions Architect coursework	

TECHNICAL TOOLBOX	
BACK-END	.NET / .NET Core, C#, REST APIs, EF, OData, CQRS
FRONT-END	React, Angular, TypeScript, JavaScript, Remix, Tailwind
CLOUD	Azure, Azure DevOps, CI/CD, Ansible, Terraform, KeyVault
DATA / TEST	SQL Server, Oracle, Cosmos DB, xUnit, NUnit, Moq
METHODS	Scrum, Kanban, SAFe, Product Ownership, PI planning
